Before you invest in any fund, consider how the fund would work with your other investments and your tolerance for risk.

This Fund is an alternative mutual fund. It may therefore invest in asset classes and/or use investment strategies that are not permitted for conventional mutual funds. The specific strategies that differentiate this Fund from conventional mutual funds may include: increased use of derivatives for hedging and non-hedging purposes; increased ability to sell securities short; and the ability to borrow cash to use for investment purposes. While these strategies may be used in accordance with the Fund's investment objectives and strategies, during certain market conditions they may accelerate the pace at which your investment decreases in value.

How risky is it?

The value of the Fund can go down as well as up. You could lose money.

Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Class A Units of the Fund. The fees and expenses – including any commissions – can vary among classes of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

The Class A Units are available through an initial sales charge option.

Sales charge option	What you pay		How it works

The Fund's expenses are made up of the management fee, operating expenses and trading costs. The annual management fee for Class A Units of the Fund is 1.00% of the Fund's value. Because this fund is new, its operating expenses and trading costs are not yet available.

In certain circumstances the Fund will pay Next Edge Capital Corp. a performance fee in respect of each fiscal quarter of the Fund, equal to 20% of the gain in the NAV per Unit of a Class of units of the Fund, accrued for on a daily basis, over the preceding fiscal quarter or quarters since a performance fee was last payable, provided that the NAV per Unit of the Fund (including distributions) is greater than all previous values at the end of each previous fiscal quarter in which a performance fee was paid. For more details, please see the "Fees and Expenses Payable by the Fund" section of the Fund's simplified prospectus.
